

The image displays a large grid structure, likely a spreadsheet or data table. The grid is composed of numerous rows and columns. The background color of the grid is a light blue. On the right side of the grid, there is a vertical strip of cells that is highlighted in purple. This purple strip is further divided into two sub-sections: the top portion is a solid purple color, and the bottom portion is a solid orange color. The rest of the grid is a light blue color with a thin black border around each cell.

The image displays a large grid structure. The top portion of the grid is filled with a light blue color, while the rest of the grid is white. The grid is composed of many small, uniform cells. Below the grid, there are two horizontal bars: a purple bar and a gold bar, both of uniform width and height.

The image displays a large grid structure. The top portion is a grid with a light blue background and a purple header. The grid is composed of many small cells, with the header row being a solid purple color. Below the grid, there are two horizontal bars: a purple bar and a gold bar.

Header Row (Purple)									
Grid Body (Light Blue)									

Below the grid, there are two horizontal bars: a purple bar and a gold bar.

The image displays a large grid structure, likely a spreadsheet or data table. The grid is composed of numerous small cells. The top portion of the grid is filled with a light blue color, while the bottom portion is filled with a purple color. The grid is bordered by a thin black line. The overall appearance is that of a blank or partially filled data table.

The image displays a large grid structure. The top portion is a grid with a light blue background and a purple header. The grid is composed of approximately 10 columns and 100 rows. The header row is solid purple, and the subsequent rows are light blue with thin black grid lines. Below the grid, there are two horizontal bars: a purple bar and a gold bar, each spanning the width of the grid.

A large grid table with a light blue background and a purple header row. The table is oriented vertically on the page. The header row is the top-most row and is filled with a solid purple color. The remaining rows are light blue with thin black grid lines forming a grid pattern. The grid consists of approximately 15 columns and 100 rows.

A smaller grid table with a purple header row and a brown footer row. The table is oriented vertically on the page. The header row is the top-most row and is filled with a solid purple color. The middle section consists of approximately 15 columns and 80 rows of light blue cells with thin black grid lines. The bottom-most row is filled with a solid brown color.

The image displays a large grid structure, likely a spreadsheet or data table. The grid is composed of many small cells. The top portion of the grid is filled with a light blue color, while the bottom portion is filled with a purple color. The grid is divided into several vertical columns. The first column on the left is the widest, followed by several narrower columns. The grid is bordered by a thin black line. Below the grid, there are two horizontal bars: a purple bar and a gold bar, both with a fine, repeating pattern.

The image displays a large grid structure, likely a data table or spreadsheet. The grid is composed of numerous rows and columns. The top portion of the grid is filled with a light blue color, suggesting a header or data area. Below this, there are two distinct vertical sections: one with a purple background and another with a gold background. The grid is bordered by thin black lines, and the overall layout is clean and organized.

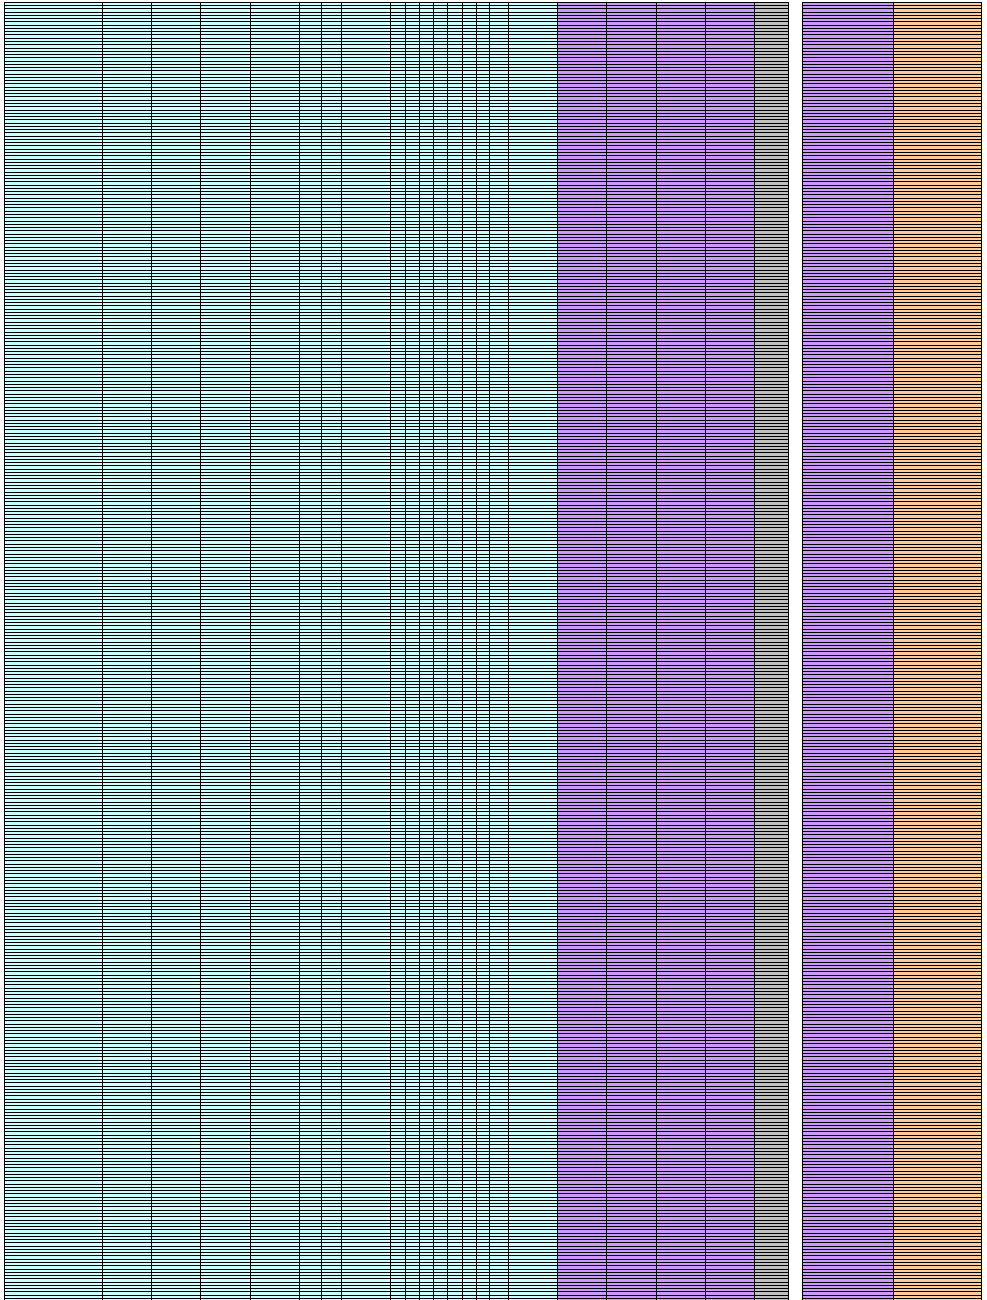

The image displays a large grid structure, likely a spreadsheet or data table. The grid is composed of numerous small cells. The top portion of the grid is filled with a light blue color, while the bottom portion is filled with a purple color. The grid is bordered by a thin black line. The overall appearance is that of a data visualization or a structured data set.

The image displays a large grid structure, likely a data table or spreadsheet. The grid is composed of numerous small cells. The top portion of the grid is filled with a light blue color, while the bottom portion is filled with a purple color. The grid is bordered by a thin black line. The overall appearance is that of a data visualization or a structured data set.

The image displays a grid of colored rectangles. The main section is a large rectangle filled with light blue, divided into a grid of smaller squares by thin black lines. To the right of this blue section is a vertical strip of purple, also divided into a grid of squares. At the bottom right corner, there is a small rectangular area with a yellow/orange background, also divided into a grid of squares.

The image displays a large grid structure. The top portion is a grid with a light blue background and a purple header. The grid is composed of many small cells, with the header row being a solid purple color. Below the header, the grid continues with the light blue background. To the right of the main grid, there are two vertical bars: a purple bar and a gold bar, both extending the full height of the grid.

The image displays a large grid structure. The top portion is a grid with a light blue background and a purple header. The grid is composed of many small cells, with the header row being a solid purple color. Below the header, the grid is filled with a light blue background and a pattern of thin, dark lines. To the right of the grid, there are two vertical bars: a purple bar and a gold bar. The purple bar is on the left, and the gold bar is on the right. The grid is oriented vertically on the page.

The image displays a large grid structure. The main grid is composed of approximately 20 columns and 100 rows. The background of this grid is a light blue color. The top row of the grid is highlighted in a solid purple color. Below the main grid, there are two additional horizontal bars: the first is a solid purple bar, and the second is a solid gold bar. The entire grid and bar structure is set against a white background.

The image displays a large grid structure. The top portion is a grid with a light blue background and a purple header. The grid is composed of approximately 10 columns and 100 rows. The header row is solid purple, and the subsequent rows are light blue with thin black grid lines. Below the grid, there are two horizontal bars: a purple bar and a gold bar, each spanning the width of the grid.

The image displays a large grid structure, likely a data table or spreadsheet. The grid is composed of numerous small cells, organized into columns and rows. The background color of the grid is a light blue. The top row of the grid is highlighted in a darker purple color, serving as a header. The bottom row of the grid is also highlighted in a darker purple color. The rightmost column of the grid is highlighted in a gold color. The grid is empty, with no data or text visible within the cells.

The image displays a large grid table with a light blue background and a vertical purple bar on the right side. The table is oriented vertically and contains a large number of rows and columns. The purple bar is positioned on the right side of the grid, extending from the top to the bottom of the page. The grid is composed of many small, empty cells, suggesting a data table or a form. The purple bar is a solid, vertical strip of color that runs parallel to the right edge of the grid.

The image displays a large grid structure. The top portion of the grid is filled with a light blue color, while the bottom portion is filled with a purple color. The grid is composed of many small, uniform cells. To the right of the main grid, there is a vertical bar with a purple background, and below that, a vertical bar with a gold background. The overall appearance is that of a data visualization or a structured layout.

The image displays a large grid structure. The top portion is a grid with a light blue background and a purple header. The grid is composed of many small cells, with the header row being a solid purple color. Below the grid, there are two vertical bars: a purple bar and a gold bar.

Header Row (Purple)									
Grid Body (Light Blue)									

Below the grid, there are two vertical bars: a purple bar and a gold bar.

The image displays a large grid structure. The top portion is a grid with a light blue background and a purple header. The grid is composed of many small cells, with the header row being a solid purple color. Below the header, the grid continues with the same light blue background and purple header. To the right of the main grid, there are two vertical bars: a purple bar and a gold bar. The purple bar is on the left, and the gold bar is on the right. The grid is oriented vertically on the page.

The image displays a large grid structure, likely a data table or spreadsheet. The grid is composed of numerous small cells, organized into columns and rows. The background color of the grid is a light blue. The top row of the grid is highlighted in a darker purple color, serving as a header. The bottom row of the grid is also highlighted in a darker purple color. The rightmost column of the grid is highlighted in a gold color, serving as a footer. The grid is empty, with no data entered in the cells.

The image displays a large grid structure. The main grid is filled with a light blue color and is overlaid with a fine grid of thin black lines. To the right of this main grid, there are two vertical bars: the first is purple and the second is gold. Below the main grid, there are two horizontal bars: the first is purple and the second is gold. The overall layout is a large grid with a purple header, followed by a purple and a gold bar, and then a purple and a gold bar at the bottom.
